## **Copying Clinical letters to Patients**

Whenever you attend a hospital your doctor receives a letter from the doctor or healthcare professional in charge of your care telling him/her about your diagnosis and what treatment is necessary. Up to now these letters have not been shared with patients. From now on this will change and patients can choose to receive a copy of the letter sent to their doctor about their attendance at hospital.

To arrange this please ask for a "Copying Clinical Letters to Patients" leaflet when you come to the hospital. The leaflet provides more detailed information and a short form to fill in to arrange to receive a copy letter.
